

Hello 🖐️

We are excited that you are investing in your future by using the Learn & Earn™ app! Your feedback and support will help us improve the way we deliver financial literacy education to students like you!

What is Learn & Earn™?

Learn & Earn™ is an app for students like you to learn about money, entrepreneurship, technology, careers, college prep, mental health, and more awesome topics through bite-sized courses. We partner with Junior Achievement (JA), a non-profit organization dedicated to giving students knowledge on the said topics. By completing courses, you earn money contributed by sponsors, such as brands and non-profit organizations, as well as by parents/guardians and family members. These funds are invested into the real stock market through ETFs and fractional shares. The best part: You get to explore and add stocks to your portfolio!

How Do I Get Started?

- 1 Download the Learn & Earn™ App.**
Use the QR code above to find the app on the [Apple App Store](#) or [Google Play Store](#). In order to create your account, you will need your phone number and class code.
- 2 Invite Your Parent/Guardian.**
Once you sign up, you will be able to send a link to your parent or legal guardian asking them to finish setting up your Learn & Earn™ account.
- 3 Don't Wait — Get Started!**
You can start completing courses and earning money before your parent or legal guardian finishes providing us with all the required legal info. Once they do, your money will start getting invested. Cha-ching! 💰

Common Questions

Wait, so this is an investment account....with real money?

Yes! The money is as real as it gets. Learn & Earn™ works with Ant Money Advisors, a SEC-registered investment adviser, to open a custodial account (more specifically an UTMA/UGMA account), which, in boring financial terms, means it is a brokerage account set up by a parent or legal guardian (or even another relative) where the assets belong to and are held for the benefit of the minor. What that means to you is that your parent or legal guardian can open an account for you (yes, you're very special!), so you can start investing early!

When do I gain access to the money?

Because the money in the account is invested for your future, the funds in the account will not be available to you until you become an adult (usually 18, but this depends on what state you live in), unless you really need the funds sooner and it's only for your own benefit and no, that doesn't mean you want the new Xbox 🎮. Just keep in mind that the money in your Learn & Earn™ account is meant for things like college tuition, books and supplies, or starting a business. Trust us, you will thank us later!

Why do I have to take more courses? I already go to school!

A lot of the courses offered in the Learn & Earn™ app introduce concepts that you may not learn about in school. You spend so much time learning history, geography, and algebra that there's not enough time for the other super important, real-life stuff like how credit cards work, starting a business, music production, and...drones! Yes, you heard us correctly 🤖. But that's not all: Learn & Earn™ also has courses on awesome career options in exciting industries, such as Tech and AI, Film and TV, Gaming, Sports, and so much more!

How much can I make from each course?

You can earn anywhere from \$1 to \$5, depending on the length of the course completed.

I forgot to invite my parent when I signed up. Now what?

You can access your parent's invite link by clicking on the red "Complete Account Setup" prompt at the top of your account settings page.

What if I don't have a class code?

You should double-check with your teacher or educator for your class's code to gain access to special sponsored courses that they have set up for your class. If you do not receive a class code from your teacher, please contact us through your app or email us at support@learnandearn.com.

What are the technical requirements to use the app?

You must have a smartphone (iOS or Android) with iOS 13/Android 21 or higher and a reliable internet connection.

For FAQs and other questions, or to view our Terms and Privacy Policy, please visit the [Learn & Earn Help Center](#) in your app or email us at support@learnandearn.com. For JA program-related questions, please reach out to your educator, teacher or local JA staff member.
